New lady's shaver: Flicker

Designed to cut hair...not skin.

Finally, a lady's shaver designed to do what you always wanted it to... cut hair, not skin.

Flicker's stainless steel blades are specially protected so they just glide over the top of your skin without cutting it.

Thanks to Flicker's exclusive self-contained design, your hands never have to touch blades again. Flicker contains 5 blades. The little window shows how many blades you've used.

Flicker lets you shave your legs close, smooth and safe. You may never nick your knees or skin your shins again.

Flicker's designed to make shaving underarms and all those hard-to-reach places easier and safer.

Look for this Flicker display wherever beauty aids are sold and find a whole new way to feel about shaving.
